

3rd Quarter Project

Social Studies 8 – Mr. Langworthy

Grade 8

THE YEAR IN REVIEW - USING KEYNOTE

Keynote is an app that works a lot like Powerpoint! You simply add slides and put pictures and text on the slides as you wish. Then, your project is viewed just like a Powerpoint show.

This quarter, I would like you to review what we have done so far this year. So for your project, I would like you to choose 8 major events from the time period we have studied (1865-1945) and summarize them. Each of the events should be a separate slide on your Keynote presentation. The event should be summarized in a text box with 2-3 sentences and then joined on the slide with a picture that goes along with the event. Each slide should have a title on the top of the slide with the event's name. The more information you include for your events, the better your grade. Events must be from the time period listed: 1865-1945. Your Keynote presentation should be turned in as an attachment to the 3rd Quarter Project assignment on EbackPack. You can do this from Keynote when you are finished (see the back of this page for help).

Here is an example slide for an event we have not studied yet (so you can't use it ☺).

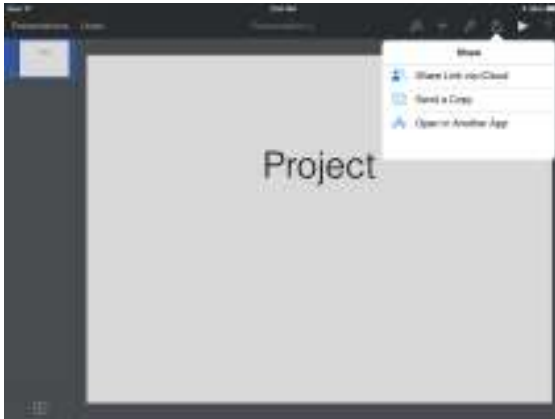

First Man Walks on the Moon

On July 20, 1969 at 10:56 p.m. EDT, American astronaut Neil Armstrong, 240,000 miles from Earth, speaks these words to more than a billion people listening at home: "That's one small step for man, one giant leap for mankind." Stepping off the lunar landing module Eagle, Armstrong became the first human to walk on the surface of the moon.

Due Date: Monday April 11, 2016

Late projects are minus 10% per day

Directions for turning in your project on EbackPack

Share – open in another app

Choose PDF file as usual

Click “Choose app”

Pick “Open in Ebackpack”

Pick “Assignment turn in” and then just turn in the way you usually do. Pick your class and assignment to attach it to and just upload – and mark as complete!

Congratulations!
