Forestville Central School District
Code of Conduct

SECTION I

Introduction

The Forestville Central School District ("District") Board of Education ("Board") is committed to providing a safe and orderly school environment where students may receive, and district personnel may deliver, quality educational services without disruption or interference. Responsible behavior by students, teachers, other district personnel, parents and other visitors is essential to achieving this goal.

The District has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty, and integrity.

No student will be subject to discrimination or harassment based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender/gender identity or sex.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property, to identify the possible consequences of unacceptable conduct, and to ensure that necessary discipline management techniques are administered promptly and fairly. To this end, the Board adopts this code of conduct ("Code").

Unless otherwise indicated, the Code applies to all students, school personnel, parents, and other visitors when on school property or attending any school function both at home and away venues.

Dress Code

Forestville Middle and High School

The dress code supports equitable educational access and is written in a manner that does not reinforce stereotypes or increase marginalization or oppression of any group based on race, gender, ethnicity, religion, sexual orientation, household income, gender identity or cultural observance.

Values:

- All students should be able to dress comfortably for school without fear of unnecessary discipline or body shaming.
- All students and staff should understand that they are responsible for managing their own personal attire without feeling it necessary to regulate another's clothing and/or self-expression.
- Teachers can focus on teaching without the additional and often uncomfortable burden of dress code enforcement.
- Consistent staff adherence to the Goals and Expectations.

Goals:

- To maintain a safe learning environment in classes where protective or supportive clothing is needed, such as technology, science (eye or body protection), or PE (athletic attire/shoes).
- Allow students to wear clothing of their choice that is comfortable.
- Allow students to wear religious attire without fear of discipline or discrimination.
- Prevent students from wearing clothing with offensive images or language, including profanity, hate speech, and pornography.
- Prevent students from wearing clothing with images or language depicting or advocating violence or the use of alcohol or drugs.
- Ensure that all students are treated equitably regardless of gender/gender identification, sexual orientation, race, ethnicity, body type/size, religion, and personal style.

Expectations:

FCS expects that all students will dress in a way that is appropriate for the school day or for any school sponsored event. Student dress choices should respect the school's intent to sustain a community that is inclusive of a diverse range of identities. The primary responsibility for a student's attire resides with the student and their parent(s) or guardian(s). Forestville Middle and High School is responsible for seeing that student

attire does not interfere with the health or safety of any student, and that student attire does not contribute to a hostile or intimidating atmosphere for any student.

1. Clothes must be worn in a way such that all private areas (genitals, buttocks, etc.) are always covered.

2. All students must wear a shirt that has material from armpit to armpit (illustrated below) with fabric in the front, back, and on the sides under the arms, bottom attire, and footwear. Also, the shirt may be raised no higher than the top of the navel (belly button).

* Certain class activities and school events may require a more formal attire that is appropriate for the occasion. Students will be expected to follow the guidelines for each of these occasions.

3. Students are permitted to wear:

- Hats, including religious headwear. Hats must allow the face to be visible to staff, and not interfere with the line of sight of any student or staff.
- Hoodie sweatshirts (not to be worn over the head)
- Fitted pants, sweatpants, shorts, skirt, dress, including leggings, yoga pants and “skinny jeans”
- Ripped jeans, as long as underwear is not exposed.
- Athletic attire
- Clothing with commercial or athletic logos

- Profanity, violent language, or images.
- Images or language depicting drugs or alcohol (or any illegal item or activity) or the use of the same.
- Hate speech or pornography.
- Clothing, including gang identifiers, must not threaten the health or safety of any student or staff.

- Undergarments must not be worn alone.
- Swimsuits
- Accessories that could be considered dangerous or could be used as a weapon.

- Any headgear that obscures the face (except as a religious observance or as personal protective equipment PPE).

Enforcement

To ensure effective and equitable enforcement of the dress code, school staff shall enforce the dress code consistently using the requirements below.

- Students will only be removed from spaces, hallways, or classrooms as a result of a dress code violation as outlined in Expectations 1 to 4.
- Staff may refer students with questionable attire to administration using a standard discipline referral form.
- If a violation occurs, the student will be expected to change their clothing to align with the Dress Code Expectations.
- Asking students to account for their attire in the classroom or hallways in front of others is strongly discouraged. This should be handled privately.

The dress code guidelines shall apply to regular school days and summer school days, as well as any school-related events and activities, such as graduation ceremonies, dances, and prom. Student athletic apparel will be defined by safety and competitive performance standards.

SECTION VI

Prohibited Student Conduct

The Board expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, District personnel, and other members of the school community, and for the care of school facilities and equipment.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in the area of self-discipline.

The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. Students may also be subject to discipline for off-campus misconduct that would foreseeably create a risk of substantial disruption within the school environment.

The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the consequences of their misconduct.

Students may be subject to disciplinary action, up to and including suspension from school, when they:

- A. **Engage in conduct that is disorderly.** Examples of disorderly conduct include:
1. Running in hallways.
 2. Making unreasonable noise.
 3. Using language or gestures that are profane, lewd, vulgar, or abusive.
 4. Obstructing vehicular or pedestrian traffic.

websites; evading the District's content filter; using an outside wireless network; or any other violation of the District's acceptable use policy.

8. Students will behave appropriately while riding District buses.

3. Engaging in harassing conduct, verbal threats, intimidation, or abuse that reasonably causes or would reasonably be expected to cause another individual to fear for his or her physical well-being.

3. Defamation, which includes making false or unprivileged statements or representations about an individual or identifiable group of individuals that harm the reputation of the person or the identifiable group by demeaning them. This can include posting or publishing video, audio recordings, or pictures (written material, cell phones, Internet, YouTube, etc.).
4. Discrimination, based on a person's actual or perceived race, age, sexual orientation, use of recognized guide dog, hearing dog or service dog, color, creed, national origin, ethnic group, religion, religious practice, sex, sexual orientation, gender or gender identity, marital or veteran status, use of recognized guide dog, hearing dog, or service dog, or disability as a basis for treating another in a negative manner on school property or at a school function.

Harassment, the creation of a hostile environment by conduct or by verbal threats, intimidation or abuse that has or would have the effect of unreasonably and substantially interfering with a student's educational performance, opportunities or benefits, or mental, emotional, or physical wellbeing based on a person's actual or perceived race, color, weight, national origin, political affiliation, ethnic group, religion, religious practice, marital or veteran status, use of recognized guide dog, hearing dog or service dog, disability, sexual orientation, gender, or sex.
6. Intimidation, which includes engaging in actions or statements that put an individual in fear of bodily harm.
7. "Internet bullying" (also referred to as "cyberbullying") including the use of instant messaging, email, websites, chat rooms, text messaging, or by any other

electronic means , when such use interferes with the operation of the school; or infringes upon the general safety and welfare of students or employees.

8. Bullying...

Possessing, consuming, selling, distributing, exchanging, attempting to sell or exchange or facilitating the sale of alcoholic beverages or illegal substances, or being under the influence of either. "Illegal substances" include, but are not limited to, inhalants, marijuana, cocaine, LSD, PCP, amphetamines, heroin, steroids, look-alike drugs, and any substances commonly referred to as "designer drugs."

13. Possessing, selling, and solicitation of prescription and OTC drugs; the attempted sale or exchange of such drugs; and facilitating the sale or exchange of such drugs.

18. Engaging in any form of academic misconduct. Examples of academic misconduct include but are not limited to plagiarism, cheating, copying, altering records, assisting another student in any of the above actions.

F. Engage in misconduct while on a school bus.

The Board of Education believes it is crucial for students to behave appropriately while riding on district buses, to insure their safety, that of other passengers, and the fewest possible distractions for bus drivers. Students are required to conduct themselves on the bus in a manner consistent with established standards for classroom behavior (see Board of Education Policy 7340, Bus Rules).

Some students are eligible for District transportation. While the law requires the District to furnish transportation for such students, it does not relieve parent(s) or guardian(s) of the responsibility for supervision until such time as the child

boards the bus in the morning and after the child leaves the bus at the end of the regular school day. Only after a child boards the bus does he/she become the responsibility of the District. Such responsibility shall end when the child is delivered to the regular bus stop at the close of the school day. If the student does not ride the regular school bus home directly from school, the student is considered a "walker." The District is not responsible for the supervision of "walkers" once school is dismissed at the end of the regular school day.

Since the school bus may be regarded as an extension of the classroom, children are required to conduct themselves on the bus in a manner consistent with established standards for classroom behavior. Excessive noise, pushing, shoving and fighting will not be tolerated. It is important that those waiting for buses conduct themselves properly in respect to the rights and property of others.

If a child does not conduct himself/herself properly on a bus, such instances shall be brought to the attention of the building principal by the bus driver. Only the building principals and the superintendent have the authority to suspend the riding privileges of students who are disorderly or insubordinate on the bus. In such cases, the parent(s) or guardian(s) of those students become responsible for seeing that their children get to and from school safely. Should the suspension from transportation amount to a suspension from attendance at school, the school district will make appropriate arrangements to provide for the student's education. Any such suspension shall be in accordance with the provisions of the Education Law. The parent or guardian is expected to make transportation arrangements for their child in the case of a suspension from transportation. Mere inconvenience to the parent or guardian does not constitute a suspension from attendance at school. The parent or guardian shall ensure that the student still attends school unless there is a legal reason for an absence.

G. Engage in any form of academic misconduct. Examples of academic misconduct include:

1. Plagiarism.
2. Cheating.
3. Copying.
4. Altering records.
5. Assisting another student in any of the above actions.

SECTION VII

Reporting Violations

All students are expected to promptly report violations of the Code of Conduct to a teacher, school counselor, the building principal or his or her designee. Any student observing a student possessing a weapon, alcohol, or illegal substance on school property or at a school function shall report this information immediately to a teacher, the building principal, the principal's designee, or the superintendent.

All District staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair, and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the Code of Conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol, or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The building principal or his or her designee must notify the appropriate local law enforcement agency of those Code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the principal or his or her designee learns of the violation. The notification may be made by telephone or in person. The notification must identify the student and explain the conduct that violated the Code of Conduct and constituted a crime.

SECTION VIII

Disciplinary Procedures, Penalties, and Referrals

A. Procedures

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in the area of self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances which led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers, and/or others, as appropriate.
6. Other extenuating circumstances.

As a general rule, discipline will be progressive. Determinations regarding student discipline will be made on a case-by-case basis, and penalties will be issued after taking the above-listed factors into consideration.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this Code of Conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

B. Discipline Management Techniques

Students who are found to have violated the District's Code of Conduct may be subject to the following penalties, either alone or in combination. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process.

1. Oral correction/warning/reprimand/student conference – any member of the District staff.
2. Cooling-off period or "time out" - monitors, teachers, principals or designee, superintendent.
3. Seating changes - monitors, bus drivers, teachers, principals or designee, superintendent.
4. Assigned school duties other than class tasks - teachers, principals or designee, superintendent. (Ex. Research paper on appropriate topic).
5. Written warning – teachers, principal or designee, superintendent.
6. Student conference with teachers, principals, superintendent.
7. Written notification to parent – teachers, principal or designee, superintendent.
8. Parent-teacher conference - teachers, principals or designee, superintendent.
9. Behavior agreement or contract - teachers, principals or designee, superintendent.
10. Temporary confiscation of items that are against school rules or disrupt the educational process - any member of the District staff.
11. Grade reductions for academic misconduct - teachers, principals, superintendent.
12. Restitution of damages or loss - principals, superintendent.
13. Detention – teachers, principals or designee, superintendent.
14. Suspension from transportation - principals or designee, superintendent.
15. Suspension from athletic participation – coaches, athletic director, principal, superintendent.
16. Suspension from social or extracurricular activities – activity sponsors or advisors, principal or designee, superintendent.
17. Suspension of other privileges – principal or designee, superintendent.
18. In-school suspension – principal or designee, superintendent.
19. Reassigned class - principals, superintendent.
20. Removal from classroom by teacher – teachers, principals.
21. Short-term (five days or less) suspension from school – principals, superintendent, board of education.
22. Long-term (more than five days) suspension from school – superintendent, board of education.
23. Permanent suspension from school – superintendent, board of education.

C. Descriptions of Selected Consequences

The amount of due process a student is entitled to receive before a discipline consequence is imposed depends on the penalty being imposed. For all cases involving the selected discipline consequences listed below, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All

students will have a reasonable opportunity to present their version of the relevant facts to the school personnel imposing the disciplinary consequence.

Students who are to be given more serious discipline consequences are entitled to additional rights before the penalty is imposed. These additional rights are described below.

1. Detention

Teachers, principals or their designee, and the superintendent may use before school, after school, or lunch detention as a consequence for student misconduct in situations where removal from the classroom or suspension would be inappropriate. After school detention will be imposed as a consequence only after the student's parent has been notified to confirm that the student has appropriate transportation home following detention.

2. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principals or their designees or the superintendent. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance, the District will make appropriate arrangements to provide for the student's education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent may be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the misconduct and the penalty involved (see Board Policy 7340, Bus Rules).

3. Suspension from athletic participation, extra curricular activities and other privileges

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the misconduct and the penalty involved. Procedures for

participation in athletic programs are described in the Athletic Handbook. Procedures for specific extracurricular organizations will be handed out and discussed in respective organizational meetings. Extra-curricular activities may establish standards of behavior—including consequences for misbehavior—that are stricter than those for students in general. If a violation is also a violation of school rules, the consequences specified by the Code of Conduct and the Student Handbook will apply in addition to any consequences specified by the organization.

4. In-school suspension

The Board recognizes that the school must balance the need for students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals, their designees, and the superintendent to place students who would otherwise be suspended from school as the result of a Code violation in “in-school suspension.” In-school suspension will be supervised by a teacher or aide.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student’s parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the misconduct and the penalty involved.

5. Teacher disciplinary removal of disruptive students

A student’s misbehavior can affect a teacher’s ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can influence a student’s behavior and maintain or restore control over the classroom by using good classroom management techniques. Such techniques may include, but are not limited to: (1) short-term “time out” in a classroom or in an administrator’s office; (2) sending a student into the hallway briefly; (3) sending a student to the principal’s office for the remainder of the class time only; or (4) sending a student to a school counselor or other District staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, a student’s behavior may become substantially disruptive.. Substantial disruptions occur when a student demonstrates a persistent unwillingness to comply

with the teacher's instructions, repeatedly violates the teacher's classroom or school behavior rules, or commits a serious act of misconduct.

A classroom teacher may remove a disruptive student from class for up to five days. The removal from class only applies to the class of the removing teacher.

If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24-hours.

The teacher must complete a District-established disciplinary removal form and meet with the principal or designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal. If the principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day if possible.

Within 24-hours after the student's removal, the principal or designee must notify the student's parents that the student has been removed from class and why. This notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or designee to discuss the reasons for the removal.

The notice may be provided telephonically, by written notice delivered by the student, personal delivery, express mail delivery, or any other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents.

During the period of removal the disruptive student shall be offered continued educational programming through alternative means. This may be accomplished by providing class work, assignments, and assistance as needed by another staff member to include aides.

6. Suspension from school

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a. Short-term (5 days or less) suspension from school

When the superintendent or principal (referred to as the “suspending authority”) proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student’s parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant

language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the District may establish..

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision, they must file a written appeal to the Board with the District clerk within 10 business days of the date of the superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

b. Long-term (more than 5 days) suspension from school

When the superintendent determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of

the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the board that will make its decision based solely upon the record before it. All appeals to the board must be in writing and submitted to the district clerk within 10 business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The board may adopt in whole or in part the decision of the superintendent. Final decisions of the board may be appealed to the Commissioner within 30 days of the decision.

c. Permanent suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

D. Minimum Periods of Suspension

1. Students who bring a weapon to school

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:

1. The student's age.
2. The student's grade in school.
3. The student's prior disciplinary record.
4. The superintendent's belief that other forms of discipline may be more effective.
5. Input from parents, teachers and/or others.
6. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a weapon to school

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same

notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher's authority over the classroom

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least five days. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

E. Referrals

1. Counseling

The School Counseling Office shall handle all referrals of students to counseling.

2. PINS Petitions

The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.

- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable, or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law § 221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

3. Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

4. Human Services Agencies The Superintendent of Schools shall make a referral of a student discipline case to an appropriate human service agency whenever, in his or her judgment, the same is warranted. The Superintendent may receive and consider the recommendations of the student's principal, teachers, counselor, school psychologist and other pupil services personnel familiar with the student in deciding whether to make such a referral and, if so, to which agency. The parent of the student shall be informed of the referral.

SECTION IX

Alternative Instruction

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the District will take immediate steps to provide alternative means of instruction for the student.

SECTION X

Discipline of Students with Disabilities

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

A. Change of Placement Rule

1. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:
 - a. for more than 10 consecutive school days; or
 - b. for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

B. Referral to Law Enforcement and Judicial Authorities

In accordance with the provisions of IDEA and its implementing regulations:

1. The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

SECTION XI

Corporal Punishment

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any district employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself, another student, teacher or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers and duties, if that student has refused to refrain from further disruptive acts.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with the Commissioner's regulations.

SECTION XII

Student Searches and Interrogations

The board of education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District Code of Conduct. Students are not entitled to any sort of “Miranda”-type warning before being questioned by school officials, nor are school officials required to contact a student’s parent before questioning the student. However, school officials should tell all students why they are being questioned.

In addition, the Board authorizes the superintendent, building principals or designee, the school nurse, and District professional staff to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District's Code of Conduct (see Board Policy 7330, Searches and Interrogations of Students).

An authorized school official may conduct a search of a student’s belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student’s belongings based upon information received from a reliable informant. Individuals, other than District employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants.

Before searching a student or the student’s belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the District's Code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practical, searches will be conducted in the privacy of administrative offices, and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, other school storage places, District issued computers, tablets or other electronic devices,. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. Vehicle Searches

The District retains the authority to conduct routine inspections of the exteriors of vehicles in school parking lots. Vehicles parked on school property are under the jurisdiction of the school. The school may search any vehicle driven to school by a student any time there is reasonable cause to suspect that contraband might be in the vehicle with or without the presence of the student. A student has full responsibility for the security of his or her vehicle and must make certain that it is locked and that the keys are not given to others.

The District may use contraband detection canines to aid in searches of school property and vehicles parked on school property. If a search yields contraband, such contraband shall be turned over to appropriate law enforcement agencies for disposition.

C. Documentation of Searches

The authorized school official conducting a search should promptly record the following information about each search if other than of desks, lockers and other school storage places:

1. Name, grade of student(s) searched.
2. Reasons for the search.
3. Scope of the search.
4. Person(s) conducting the search.
5. Date, time and location(s) of the search.
6. Results of search (that is, what items(s) were found).
7. Disposition of items found.
8. Parental notification.

The building principal or the principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the item(s) is/are turned over to the police. The principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

D. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function; or
3. Been invited by school officials.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall first try to notify the student's parent to notify the parent about the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search may still be conducted. The principal or designee should also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

E. Child Protective Services Investigations

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to Child Protective Services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local Child Protective Services workers who wish to conduct

interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by Child Protective Services to interview a student on school property shall be made directly to the building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the Child Protective Services worker to verify the allegations, the school nurse or other District medical or health personnel should be present during that portion of the interview. No student will be required to remove his or her clothing in front of a Child Protective Services worker or school district official of the opposite sex.

A Child Protective Services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if not he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

SECTION XIII

Visitors to the Schools

The Board encourages parents and other District citizens to visit the District's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor.
2. All visitors to the school must report to the office of the principal immediately upon arrival at the school. There they will state the nature of their visit and request permission to visit school premises. If permission is granted, the visitors will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the principal's office and sign out before leaving the building.
3. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.
4. Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the classroom teacher(s), so that class disruption does not occur.
5. Teachers are expected not to take class time to discuss individual matters with visitors.
6. Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
7. All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct. If visitors do not abide by the rules for public conduct, their permission to visit may be revoked, and they will be required to leave school grounds.

SECTION XIV

Public Conduct on School Property

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the Code, “public” shall mean all persons when on school property or attending a school function including visitors, students, teachers, and District personnel.

The restrictions on public conduct on school property and at school functions contained in this Code are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to the objectives of the District. The purpose of this Code is to maintain public order and safety and prevent abuse of the rights of others.

All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose they are on school property.

A. Prohibited Conduct

1. Intentionally injure any person or threaten to do so.
2. Intentionally damage or destroy school district property or the personal property of a teacher, administrator, other district employee or any person lawfully on school property, including graffiti or arson.
3. Disrupt the orderly conduct of classes, school operations or administrative functions, transportation of students or staff, school programs or other school activities or events.
4. Distribute or wear materials on school grounds or at school functions that are obscene, lewd, inappropriate for view by children, advocate illegal action, appear libelous, obstruct the rights of others, or are disruptive to the school program.
5. Intimidate, harass or discriminate against any person on the basis of race, color, creed, national origin, religion, age, gender, sexual orientation, disability or other protected category.
6. Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.

7. Obstruct the free movement of any person in any place to which this Code applies.
8. Violate the traffic laws, parking regulations or other restrictions on vehicles.
9. Possess, consume, sell, distribute or exchange alcoholic beverages, controlled substances, or be under the influence of either on school property or at a school function.
10. Possess or use weapons in or on school property or at a school function, except in the case of law enforcement officers or except as specifically authorized by the school district.
11. Loiter on or about school property.

B. Penalties

Persons who violate this Code shall be subject to the following penalties:

1. **Visitors.** Their authorization, if any, to remain on school grounds or at the school function shall be withdrawn and they shall be directed to leave the premises. If they refuse to leave, they shall be subject to immediate ejection, loss of privileges to attend future activities and events, may be banned from school property, and may be subject to civil or criminal legal action pursued by the District.
2. **Students.** They shall be subject to immediate ejection and disciplinary action and/or legal action as the facts may warrant, in accordance with the Code and due process requirements.

C. Enforcement

The superintendent and building principal or his or her designee shall be responsible for enforcing the public conduct required by this Code.

When the superintendent, building principal or his or her designee sees an individual engaged in prohibited conduct, which in his or her judgment does not pose any immediate threat of injury to persons or property, the superintendent, principal or his or her designee should tell the individual that the conduct is prohibited and attempt to persuade the individual to stop. The superintendent, principal or his or her designee should also warn the individual of the consequences for failing to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct poses an immediate threat of injury to persons or property, the superintendent, principal or his or her designee may have the individual removed immediately from school property or the school function. If necessary, local law enforcement authorities will be contacted to assist in removing the person.

The District may initiate disciplinary action against any student or staff member, as appropriate, with the "Penalties" section above. In addition, the District reserves its right to pursue a civil or criminal legal action against any person violating the Code.

D. In-Service Educational Programs:

The Board will provide in-service education programs for all District staff members to ensure the effective implementation of this Code, to promote a safe and supportive school climate while discouraging, among other things, harassment, bullying and discrimination against students by students and/or school employees and to include safe and supportive school climate concepts in the curriculum and classroom management. In-service education programs shall also include training on the social patterns of harassment, bullying and discrimination, including but not limited to those acts based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex, the identification and mitigation of harassment, bullying and discrimination, and strategies for effectively addressing problems of exclusion, bias and aggression in educational settings. The Superintendent may solicit the recommendations of the District staff,

particularly teachers and administrators, regarding in-service programs pertaining to the management and discipline of students.

SECTION XV

Dissemination and Review

A. Dissemination of Code of Conduct

The Board will work to ensure that the community is aware of this code of conduct by:

1. Providing copies of a summary of the Code to all students at a general assembly held at the beginning of each school year.
2. Making copies of the Code available to all parents at the beginning of the school year.
3. Mailing a summary of the Code of Conduct written in plain language to all parents of district students before the beginning of the school year and making this summary available later upon request.
4. Providing all current teachers and other staff members with a copy of the Code and a copy of any amendments to the Code as soon as practicable after adoption.
5. Providing all new employees with a copy of the current Code of Conduct when they are first hired.
6. Making copies of the Code available for review by students, parents and other community members.

The Board will sponsor an in-service education program for all District staff members to ensure the effective implementation of the Code of Conduct. The superintendent may solicit the recommendations of the District staff, particularly teachers and administrators, regarding in service programs pertaining to the management and discipline of students.

B. Review of Code of Conduct

The Board will review this Code of Conduct every year and update it as necessary. In conducting the review, the Board will consider how effective the Code's provisions have been and whether the Code has been applied fairly and consistently.

The Board may appoint an advisory committee to assist in reviewing the Code and the District's response to Code of Conduct violations. The advisory committee will be made up of representatives of student, teacher, administrator, and parent organizations, and other school personnel.

Before adopting any revisions to the Code, the Board will hold at least one public hearing at which school personnel, parents, students and any other interested party may participate.

The Code of Conduct and any amendments to it will be filed with the Commissioner of Education no later than 30 days after adoption.
