Waves Practice problems

Physics

Directions: Answer the questions below according to the following diagram.

time = 1 second  
FRAME

1. What is the wavelength of Wave A and B?
2. What is the frequency of Wave A and B?
3. What is the period of Wave A and B?
4. What is the wave speed of Wave A and B?
5. Label (2) points on Wave A that are in phase with each other.
