

All-Call March 25, 2022

The Forestville Middle-High School conducted a routine safety drill this morning where we had support from the Sherriff's K-9 units. Staff and students were directed through the safety protocols to ensure everyone's safety during this drill. The K-9 unit scanned the building as a training exercise and at the same time provided District administration with valuable information and feedback regarding our safety procedures. No illegal drugs or hazardous materials were found during this exercise and all students and staff were accounted for and safe throughout the exercise. Thank you for your support.
