

Mrs. Dolce

6<sup>th</sup> Grade

Math, Science, Health

Hello future 6<sup>th</sup> grade students! I will be teaching you math, science and health next year.

For my classes You will need:

- 3 regular pocket folders for my classes (one for math, one for Science and one health)

In addition to the above, you will need:

- 2 large containers of disinfectant wipes
- 1 large box of tissues
- Pencils (lots) and erasers
- Pencil sharpener that holds the shavings
- 2 blue pens
- A black "fine point" sharpie
- Loose leaf notebook paper (2 packages to start)
- You may also want to have either a box of crayons or colored pencils for projects
- Head phones for chrome books (please just a small, storable pair)
- You will need a couple of poster boards later in the year so you may want to put them on your list and keep them handy at home
